

CANARA ENGINEERING COLLEGE

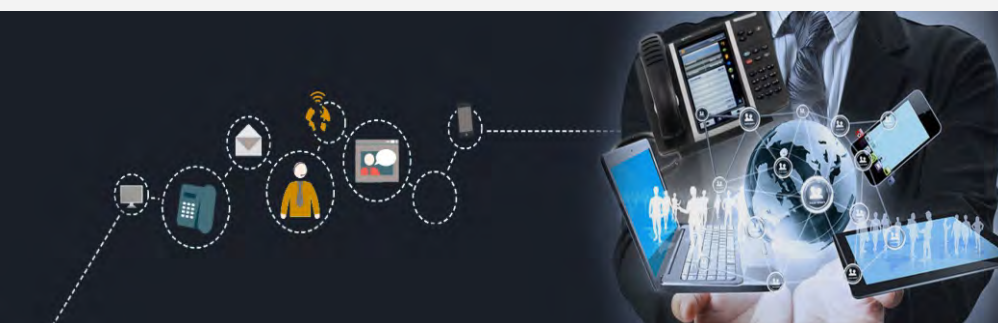

ELECTRONICS AND COMMUNICATION ENGINEERING DEPARTMENT

NEWSLETTER

DHWANI

VOLUME 9

ISSUE 2

AUGUST 2019

Department Vision

- The Department of Electronics and Communication Engineering strives to be a centre of repute by imparting quality education to produce globally competent graduates with human values.

Department Mission

- Create conducive environment for overall development of students.
- Equip the students with technical skills to bridge the gap between academia and industry.

PROGRAMME EDUCATIONAL OBJECTIVES

- **PEO I.** Succeed in their professional career.
- **PEO II.** Apply the knowledge of Electronics and Communication to address technological problems of industry and society.
- **PEO III.** Demonstrate leadership qualities and exhibit professional standards.

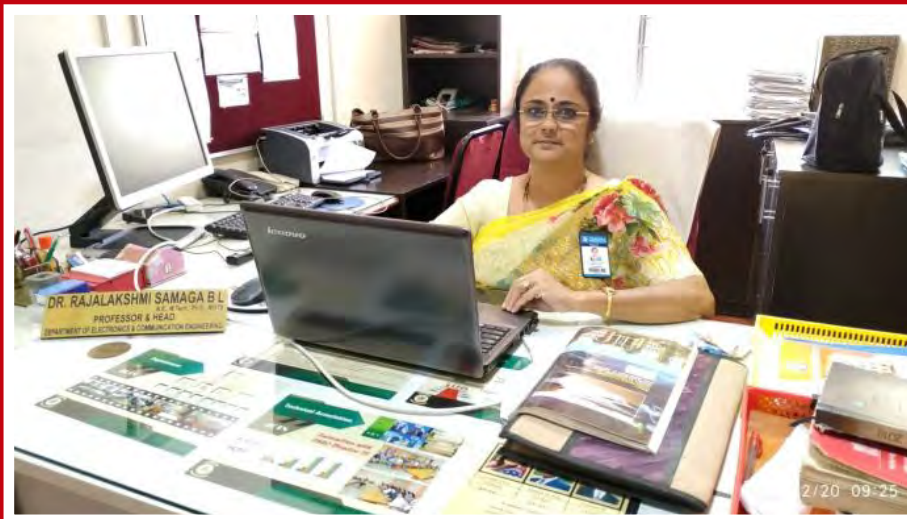

EDITORIAL BOARD

Dear Readers,

The department magazine “DHWANI” is ready to showcase the activities that are happening in the department. I feel privileged in presenting the edition of our department magazine. The purpose of the Magazine is to provide a platform to the students and staff to give expression to their original thoughts and thus develop an important aspect of their personality. This edition of “DHWANI” has loads of information about the department activities including interviews with our staff. It also includes the student achievements in co-curricular and extra-curricular activities. These show their ability to tune physical skills and achieve a competency in sports and games. I take this opportunity to thank all those authors who have contributed the articles and the members of the editorial board and designers. Lastly, I would like to place on record my gratitude and heartfelt thanks to all those who have contributed to make this effort a

What Department Head Says

Dr. Rajalakshmi Samaga B L

I would like to compliment the editors of **DHWANI, 2018-19 issue - voice of Electronics and Communication Engineering Department**, for showcasing the departmental activities in a very effective manner. I thank the contributors to this newsletter. The department has adopted Outcome Based Education system, where in industry ready graduates are produced. The department has seen a transformation during this period. The emphasis was laid on enhancement of skill sets required for placement in both personality development field and technical field. I would like to congratulate all the placed students and wish them success in their carrier. Through this platform, I would request all the stake holders to come forward and contribute their valuable suggestions towards the development of the department.

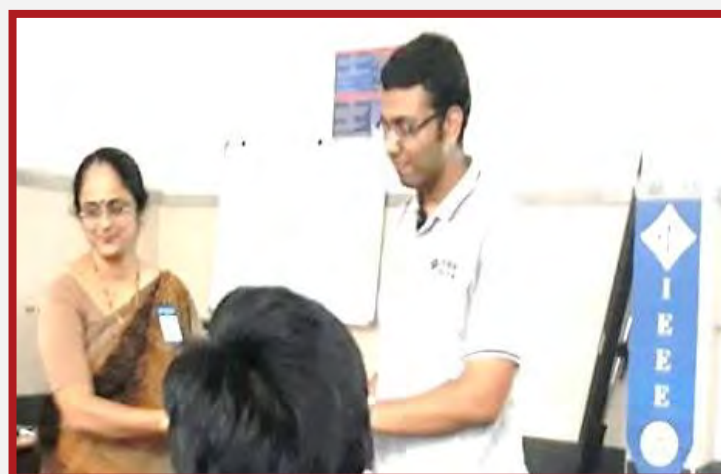

DEPARTMENT ACTIVITIES

- ❖ IEEE Student Branch CEC wins the second best Student Branch in Mangalore Sub Section 15-1-2019

Ms. Vibhalakshmi Rai of 6th semester ECE presented the annual report of activities of the year 2018 at the Annual General Meeting of IEEE Mangalore Sub Section at NITK, to a panel of 3 judges Prof. Dr. U C Niranjan, Prof T N Shanubhogue and Mr. Rajashekhar- Secretary Bangalore Section. While IEEECan was selected the second best Student branch, IEEE SB NITK stood first. The prize of Rs. 6000 was given to the branch councilor.

- ❖ Technical talk on VLSI and CAS on 6-2-2019

A talk was arranged by the CAS – Circuits and Systems Society of IEEE SB NITK - Surathkal on 6th February in CEC. The main intent of this event is to provide an opportunity to all interested learners, irrespective of the branch, to understand and learn the concepts of VLSI, the design flow and other processes involved in a better way. Mr. Samarth Bonthala and Mr. Tarun Mittal from IEEE NITK Student Branch addressed students about activities in IEEE Circuits and Automation society and spoke in

detail about the VLSI Design flow. This was followed by a Quiz that was won by Mr Krishna Prasad, Akhilesh and Mr. Akhil. Resource people: Mr. Samarth Bonthala Chair NITK SB, Tarun Mittal CAS Chair, Suraj Sampath, was felicitated by the HOD Dr. Rakjalakshmi Samaga. About 100 students from EEE and ECE 4th semester and 8th semester benefitted from the talk. Venue: Main Seminar Hall and ECE Seminar Hall.

❖ **Talk on 4G Evolution to 5G with an overview of 5G** 2-15-2019

Section and CSI Chapter CEC. The extended lecture was aimed at creating an awareness regarding the technology and its scope. This session provided a good idea of evolution from 4G to 4G Advanced to 4G Advanced Pro to 5G. It focused on various technical advancements in the area of Radio (Wireless) and Core Network. This session offered a good understanding of various techniques used for improving data rate, latency and overall capacity of the network. The participants also got an idea of career opportunities in 5G and the skill sets needed to be equipped with in order to avail those opportunities. Total of no. of participants: 230.

❖ **Inauguration of CanBuild Club – A special Interest Student Group**

A special Interest Group of Electronics Enthusiasts came together under the banner of Can Build under the leadership of Ms. Shreeraksha Panemangaluru, The group engages itself in weekends and on free time teaching and learning various IoT and other embedded concepts etc in building projects for the use of community and society.

A special lecture on 5G Technology, by Mr. Devadas Pai, **CEO, NanoCell Networks Pvt Ltd** on 15th Feb 2019, 9:00 A.M, onwards was organized by IEEE SB CEC in association with IEEE Bangalore Section, Mangalore Sub

❖ Initially I used to gaze at my engineering books and think how come transistor can transfer resistance and why electronics is an evergreen branch. As I was a biology student I literally failed to enjoy the subject's content during my engineering. So I decided to practically apply my knowledge and learn from the projects. That was a time where I had no idea of how to begin because I had no feasible ideas to build a project. Travelling was my hobby so as I was travelling to different places I found few problems around us to which no satisfactory solutions were developed to resolve. How many of us have wondered how can one stop animals from entering an electrically fenced farm invariably getting electrocuted. Being an animal lover myself I tried finding a solution so that no animals would lose its life, in addition to javing the trespasser's image sent to the farmer. This could be done using mini drones and cloud computing. I am currently working on it to apply my project in agricultural fields. One day I met my professors Mr. Raghavendra Shetty and Mr. Sreerama samartha with whom I shared my ideas for a set of problems and my solutions and asked their help to know how well I can build the project. As the days went my juniors too got interested to work along with me eventually we now have a team from across all disciplines and semesters in my college. My team consists of 10 members and I named it as CANBUILD and members worked with me are: Chethan. G. Naik, Sudarshan. K, Deekshith, Akhilesh Kumar. P, Shreya, Shreesh Kulkarni, Rohith Shenoy, Rohith Hegde, Pavan Shetty. We together built projects namely R.O.D a

Shooting game and balancing robot. Our small team of 10 has now developed into a club called CANBUILD CLUB guided by my mentors with 80+ students. We take sessions on various softwares and hardwares including assigning them with projects. Ultimately, it's an honor to be a founder of my club and I will see to it that I provide all the resources that our club members needs and never divert form my responsibility and try to grow from a problem seeker to a problem solver hopefully with all my teammates.

❖ 24 hour National Science Day Hackathon 28-2-2019

A 24 hour hackathon commemorating the National Science Day was conducted in CEC by IEEECan, on 28th February 5 institutes participated in it with 10 students from ECE Departments. 10 teams were shortlisted based on their project proposals that were on 5 basic tracks. The event was coordinated by Prof. Santhosh Hiremath and Mr. Mohitraj Kulal and Mr. Suraj Pai

❖ Technosis a Paper Presentation 2-3 2019

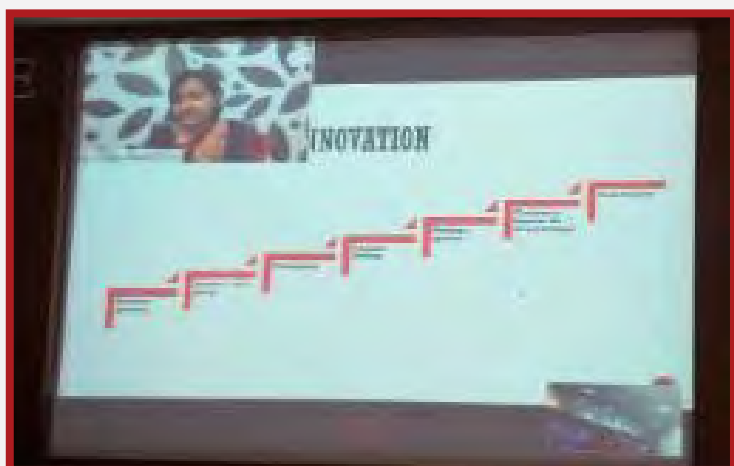

The papers needed to be drafted in IEEE conference format on the topic: Advancement of technology for Humanity by the great Indian Jugaad logic. Judges for the event one week in advance and the acceptance notified via email - Evaluation was based on the content & composition of the shortlisted papers. Prof. Dr. Biju R Mohan ISE Dept NITK, Prof. Ajith Joshi Mechanical Engineering CEC judged the final presentations given by a total – 16 number of teams that were shortlisted from 24. First Prize winners Ujwal Salian and Nikhitha Jain of Mangalore Institute of Technology and Engineering (MITE). Second Prize winners Prajna Bhat, Pooja Naik of Srinivas Institute of Technology (SIT). The event was witnessed with a lot of audience participation in Venue: ECE Seminar Hall

❖ **Women's Day Technical talk on "Innovation and Entrepreneurship"** on 8-3-2019

On the occasion of International Womens' day on 8th march 2019, a talk by Ms. Smitha Mave, Director Engineering - Athena Health Bengaluru was organized. The topic was suggested by the student organizers as they found it relevant and necessary. More than 300 students from various branches were present for this talk. Venue: Main Seminar Hall. The crux of the talk however was to be "enthusiastic and try new ideas, take risks and have the courage to tread the path less taken. There is no such thing called failure, only learning".

❖ **Technical talk on "Waste management"** March 8, 2019

The talk by Ms. Nandini Raghuchandra Proprietor of Daily Dump, Bangalore was very well received. She spoke of how wastage of food and other natural resources can be reduced and introduced an easy solution to composting. She explained the process of Aerobic process of Composting, wherein the Organic waste is covered with Compost Maker Remix Powder every day. Venue: Main Seminar Hall – participation 240 students.

❖ Women's week Workshop Series – **Summer of Codes 2019** on 8-3-2019

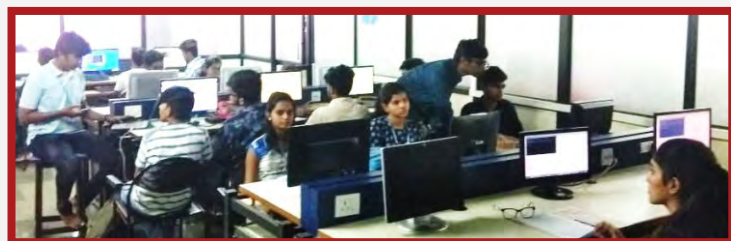

Under the umbrella of CanTech summer of codes 2k19, a unique workshop series, kicked off after the International Women's day on 9th March 2019, with the following workshops:

1. Introduction to Python and GitHub
2. Python for signal processing
3. Sensor debriefing
4. Arduino bot building
5. RC plane building
6. Potrait sketching
7. Photography workshop

❖ Women's week **Workshop on Introduction to Python and GitHub**

This workshop was specially resourced by the students of IEEE student branch NITK on special request. Resourced by Abhinav PY and Archit Pandey. The agenda of morning session was to cover the following topics: Introduction to Python – relevance of learning it in the current context, installing Python - how is it different from C/C++ - modules and libraries, Demo of some scripts in Python. In the afternoon session, following topics were covered: Writing simple scripts in Python, Git and Github brief, why important, how to get started total no. of participants: 42 Venue: VLSI Lab

❖ Women's week **Workshop on Python for Signal Processing**

This workshop too was resourced by the students of NITK Student Branch. Resourced by Mr. Anirudh Sundar, Mr. Anirudh Aatresh, Mr. Manan Sharma, This workshop started from the constructs of the popular Python library SciPy. Applications using audio processing and OpenCV for image processing were done. Also included was a Demonstration of some commonly studied concepts in signal processing and hands-on session using Python. The concepts covered were: Introduction to Python, Basics of DSP, Reading and writing audio, Sampling theory, FIR filters and denoising, DFT/Spectrograms. Total no. of participants: 28 Venue: DSP Lab

The poster features a green background with a yellow sine wave and a bar chart. At the top, it displays the Canara Engineering College logo and the IEEE logo. The text reads: CANARA ENGINEERING COLLEGE, CANTECH, SUMMER OF CODES 2019, 09 March 2019. A prominent yellow banner in the center contains the title 'Python for Signal Processing'. Below this, it says 'Register Now!' next to the Python logo. At the bottom, it lists the resource persons: Mr. Anirudh Sundar, Mr. Manan Sharma and Mr. Anirudh Aatresh. A pink starburst in the bottom right corner indicates the location and time: DSP LAB, 9:00 AM to 12:00 PM, and the fee: 50 /-.

❖ Women's week **Workshop on Sensor debriefing**

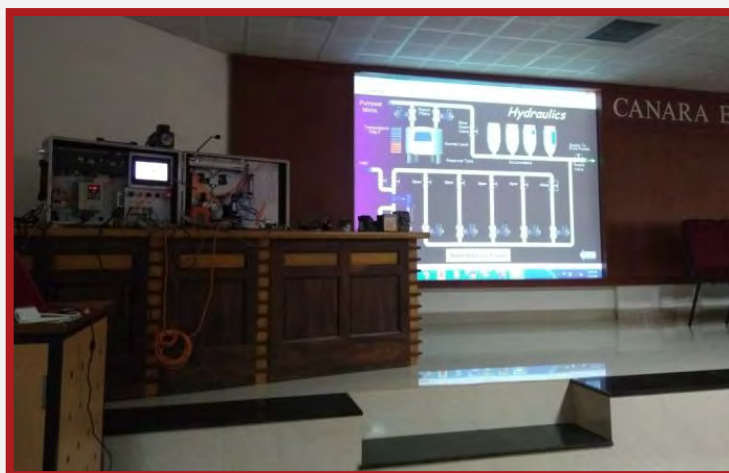

This workshop organized by the IEEE student branch on introduction to sensors in Industrial applications was the special initiative of the Departmental Head Dr. Rajalakshmi Samaga. Mr. VenuGopal CEO, M/s Venjay Pvt Ltd & Mr. Arun Kumar Chief Engineer M/s Venjay Pvt Ltd, enlightened the students about various electromechanical and electronic sensors and how they are used in industrial establishments in this technical talk.

Total no. of participants: 53 Venue Main Seminar Hall.

❖ Women's week **Workshop on Arduino for bot building**

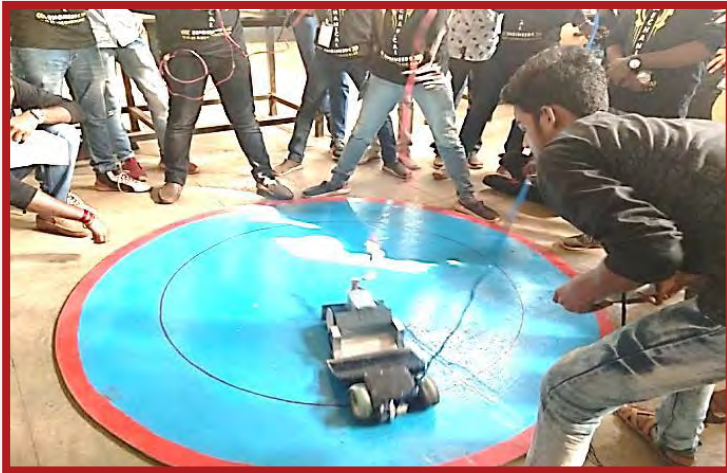

This workshop too was based on peer learning model, resourced by students Mr. Aksrsh , Arjun Shaashank, Abhunav Vimukthi Joyston Noronha The workshop aimed at introducing to the audience the basic schemes in configuring an arduinoboard with some sensors as a line following Bot. Total no.of participants: 30 Venue CAD - Design Lab First Floor

❖ Women's week Workshop on RC plane building

This workshop too was based on the peer learning model. Resource People: Kishan CD, Arfad, Coordinated by Ms. Ankitha S Shetty, Akhilesh. In this particular workshop, students got to make an RC plane from the scratch and gained a free membership to Aerocanara Club of CEC. Total no. of participants: 20.

❖ Women's week Workshop on Potrait sketching

This workshop was probably the most well received workshop and was resourced by Prof. Sanjay GudiSagar who came all the way fom Bhatkal. The 2 sessions saw a very healthy participation and was extremely well appreciated by all participants. Venue: Class room

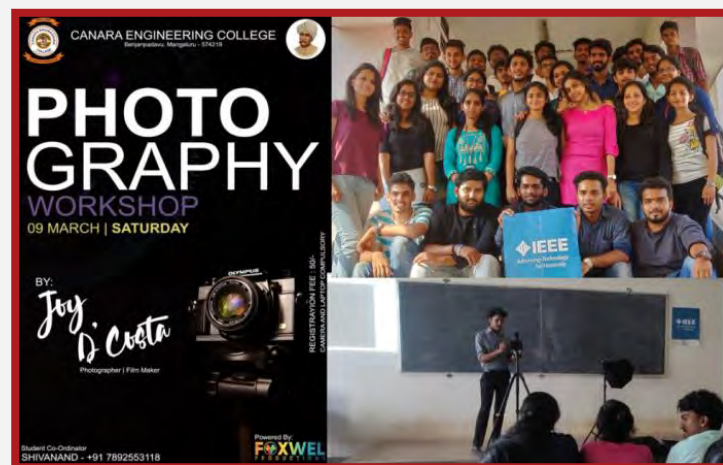

EL007, number of participants 29:

❖ Women's week Workshop on Photography

This workshop was resourced by an Industry practitioner Mr. Joy D'Costa. It was coordinated by Mr. Shivanand

and Prof. Narayan Swamy of Mechanical Engineering Dept. The workshop had 25 participants and was conducted in CL203. The workshop introduced to the participants the concepts of: basics of light and how the eye fixes lighting. How to get one's camera to catch what one's eye sees to produce better pictures. The jargons and equipment as Camera, Working, shutter speed, aperture, ISO sensitivity, ISO, WB, Exposure Triangle, Flash Photographic lenses, Camera formats, Difference between FX and DX or Full frame and Cropped, PASM Modes in detail, Image Quality and sharpness, color spaces, Focusing modes, Bracketing basics, Composition and Lighting, Depth of field and how we can change it etc were discussed

❖ Participation in VLSI Test Workshop on 30-

3-2019 at NITK

One Day VLSI Test Workshop on 30-3-2019 organised at NITK Surathkal under the aegis of IEEE MSS and ITC/TTTC. The resource persons were senior technical leaders from Texas Instruments and Rambus, Bangalore. Seven Students from the 8th semester ECE Ashish Kumar B, Karthik P S, Shivaprasad Gaonkar, Bharathi Prabhu B, Vaishnavi Nayak, Sanketh Rai, Rohith Babu Devadiga, participated in the workshop.

❖ Workshop on IEEE Xplore on 11-04-2019

This workshop resourced by Mr. M S Srinivas,

Training Manager from EBESCO, IEEE India Bangalore. It aimed at giving the participants the overview of IEEE Xplore digital library upgraded version, Project oriented search strategies. The learning objectives were: Educate the students and faculty reg. Finding relevant information for literature/systematic review, Personalization features to save time, Finding the popular and latest information for their scholarly work, Code Ocean, Math ML code, Images usage, Contextual descriptions. Venue: CAED Lab second Floor, number of participants 100, based on first come first serve basis.

❖ An **Industrial visit** was organized by the department of electronics and communication engineering to Kitex Limited, Cochin, on 13th April 2019. Total no. of students who went on this IV was 80.

❖ Industrial Visit to SkanRay Mysuru 29th and 30-4-2019

An all expense borne crash course on Applied Engineering in Healthcare and diagnosis and orientation to manufacturing, quality and regulatory was arranged at the SkanRay Mysuru Campus accommodating and hosting our students. The interactive sessions and the learning opportunity given were very highly regarded by the participants as excellent. The student selection was solely based on their Statements of purpose. Participants included 7 students from ECE dept 6th semester. Ms. Ankitha S Shetty, Ms. Deepti Shenvi, Mr. Allan J D'Souza, Mr. Antonio Sharaon, Mr. Gopal Prasath, Mr. Ashish Shenoy, Mr. Manjunath Rai. The intensive two day crash course covered these aspects: Applied Engineering in Medical Electronics, Radiology Overview, Dental business Overview, Service Overview, Administration Overview, Accounts overview, Plant

Engineering and EHS, Quality & regulatory, IT Etiquette/Guidelines, PMS/ESU overview, Quality Begins with Me' & Capnostream, Production & PEPI, Plant engineering & EHS, Sales/ Marketing/ customer support, Introduction on Intellectual Property.

❖ **Project Exhibition on 16-05-2019**

On 16th May 2019 students of pre-final years and final year were given opportunity to exhibit their projects and these were evaluated on the basis of various parameters. Evaluators from Slekin Pvt Ltd, Mr. Sujan and Mr. Mohan were called in to evaluate projects from the 6th semester who adjudged the Project IoT for Smart farming by Ms. Tejaswini and Ms. Shwetha as the best project, with a tie in between the projects “Water Dispenser” by Ms. Prineeta and Ms. Sharrel and “INterView Software “ by Mr. Shantanu and Mr. Shravan. Prof. Dr. Suryakrishna HOD ECE SIT Valachil and Prof. Prasanna Kumar from Sahyadri College of Engineering and Management adjudged the projects “Tomato Leaf Disease identification” by Ms. Anusha Rao, Ms. Apoorva A J Shetty, Ms. Kavyashree, and Mr. Prajwal Narayan and The Project “Rail track crack detection” by Mr. Rakshit N, Mr. Sanket Rai, Mr. Vishal Karanth and Sachin as the best. The project “Fish freshness detection” by Ms. Shraddha Shetty, Ms. Shilpa, Ms. Yashaswini and Ms. Shravya was selected as the most innovative project. Venue for the exhibition for 6th semester: EL003 and EL004, the exhibition for 8th semester – DSP Lab, VLSI Lab.

❖ MANAAN 3.0 on 18-05-2019

MANAN 3.0 was held on 18th May 2019 at the EC seminar hall of CEC by IEEE student branch. The purpose of this event was to handover the responsibilities and duties of the current EXECOM members to the next EXECOM members and also to have a farewell to all the outgoing EXECOM members. This year welcomed 30 new members to the EXECOM. The selection was based on self nomination and a series of tests and GD followed by interviews by a panel of Faculty and the ExeCom 2018.

❖ Achievers – Hall of fame

Mr. Chethan Bhandarkar of 8th semester ECE A received a certificate of appreciation from James Jeffries President IEEE – 2018, for his outstanding contributions as an ambassador for IEEE Xtreme12.0 at CEC. He ensured 102 participants in these years Xtreme – a 24 hour global hackathon organised by the YP of IEEE in association with CSAcademy and Hackerearth. Mr. Varun Vasant Kamath of 8th Semester ECE A, also received a certificate of appreciation from all the Global in charges of IEEE Day for being the campus ambassador. He also coordinated the photo shoot for the IEEE Day photo contest.

IEEECan also won second amongst the Student branches in MSS for 2018 at the AGM 2018 at NITK.

❖ Our Alumnii make headlines

Our alumnus Mr. Jeethan Castellino of ECE batch of 2012 won 3 awards the best Idea, the best -Entrepreneur and the most promising startup in the services sector in YenFame Awards 2019 for “Empowering emerging startups” on February 10 at YIT Mangalore. Also awarded was Ms. Nitasha Shetty batch of 2011 for her enterprise on Image consultancy as best woman entrepreneur.

WORKSHOPS ATTENDED

- ❖ Mr. Sandeep Prabhu M, Assistant Professor Participated in Workshop on “Deliberation of 3-8th semester 2018 scheme, syllabus” from 25th to 26th April 2019 Held at Vidyavardaka college of engineering, Mysore.
- ❖ Mr. Sandeep Prabhu M, Assistant Professor Participated in Paper presentation/Poster presentation competition of Jnanasangama – 2019 held on 11th May 2019 at Vivekananda College of Engineering and Technology, Nehru Nagar, Puttur for the paper titled “Automatic Lane Departure Detection and Warning System”.
- ❖ Mr. Ajeya B, Assistant Professor Participated in the VTU sponsored Three day workshop on “Aspects of LTE 4G” under TEQIP 1.3 held from 22nd – 24th March, 2019 at Sahyadri College of Engineering and Management, Mangaluru.
- ❖ Ms. Naidile S, Assistant Professor Participated in two days intensive workshop on “Research Methodology and IEEE Authorship lab” on 1st and 2nd February 2019 organized by Kristu Jayanthi College and IEEE ComSoc Chapter Bangalore, India.

FACULTY ACHIEVEMENTS

- ❖ Mr. Raghavendra M Shetty, Associate Professor Successfully completed 8 week (Jan-Mar 2019) Online

course “Embedded System Design System with ARM” conducted by NPTEL with the consolidated score of 78%.

- ❖ Mrs. Savitha Acharya, Assistant Professor Successfully completed 8 week (Jan-Mar 2019) Online course “Embedded System Design System with ARM” conducted by NPTEL with the consolidated score of 96%.
- ❖ Mrs. Savitha Acharya, Assistant Professor Successfully completed 8 week (Feb-Apr 2019) Online course “CMOS Digital VLSI Design” conducted by NPTEL with the consolidated score of 72%.
- ❖ Mr. Ajeya B, Assistant Professor Successfully completed 4 week (Feb-Mar 2019) Online course “Teaching and Learning in Engineering (TALE)” conducted by NPTEL with the consolidated score of 70%.
- ❖ Mr. Sandeep Prabhu M, Assistant Professor bagged First Prize at Paper presentation/Poster presentation competition of Jnanasangama – 2019 held on 11th May 2019 at Vivekananda College of Engineering and Technology, Nehru Nagar, Puttur for the paper titled “Automatic Lane Departure Detection and Warning System”.

STUDENTS ACHIEVEMENTS

- ❖ Vijwal H Shetty, Nikhin, Navaneeth Kumar and Akshay guided by Mr. Raghavendra Sooda, Assistant Professor won Second Prize of Rs. 1.5 lacs at National level Project exhibition “Anvenashan 2019” Design and Fellowship Program by Analog Devices, Bangalore on 7th June, 2019.

- ❖ Pradeepa P S, Anala Keshava, Abdul Khadher Azmal and Manthan D C guided by Mr. Sandeep Prabhu M, Assistant Professor won First Prize at Jnanansangama VCET,Puttur 11th May, 2019
- ❖ Sudarshana Kalluraya M won Second Prize at Aakriti 2019 held at CEC, Benjanapadavu on 1st and 2nd March 2019.
- ❖ Ms. Chaitra, 3rd year student successfully completed 8 week (Jan-Mar 2019) online course “Embedded System Design System with ARM” conducted by NPTEL with the consolidated score of 83%.
- ❖ Mr. P Shrivatsa Bhat, 3rd year student successfully completed 8 week (Jan-Mar 2019) online course “Embedded System Design System with ARM” conducted by NPTEL with the consolidated score of 68%.
- ❖ Ms. Megha U Shenoy, 3rd year student successfully completed 8 week (Jan-Mar 2019) online course “Embedded System Design System with ARM” conducted by NPTEL with the consolidated score of 62%.
- ❖ Mr. Karthikeya, 3rd year student successfully completed 8 week (Jan-Mar 2019) online course “Embedded System Design System with ARM” conducted by NPTEL with the consolidated score of 67%.
- ❖ Mr. Shravan Shanbag, 3rd year student successfully completed 8 week (Jan-Mar 2019) online course “Embedded System Design System with ARM” conducted by NPTEL with the consolidated score of 78%.
- ❖ Ms. Shailashree M S, 3rd year student successfully completed 8 week (Jan-Mar 2019) online course “Embedded System Design System with ARM” conducted by NPTEL with the consolidated score of 53%.
- ❖ Mr. Rayan, 3rd year student successfully completed 8 week (Jan-Mar 2019) online course “Embedded System Design System with ARM” conducted by NPTEL with the consolidated score of 82%.
- ❖ Mr. Rakshith Kumar, 3rd year student successfully completed 8 week (Jan-Mar 2019) online course

“Embedded System Design System with ARM” conducted by NPTEL with the consolidated score of 53%.

- ❖ Mr. Stalvin Mezenes, 3rd year student successfully completed 8 week (Jan-Mar 2019) online course “Embedded System Design System with ARM” conducted by NPTEL with the consolidated score of 45%.
- ❖ Mr. Yajnesh, 3rd year student successfully completed 8 week (Jan-Mar 2019) online course “Embedded System Design System with ARM” conducted by NPTEL with the consolidated score of 69%.
- ❖ Ms. Fiona Crasta, 3rd year student successfully completed 8 week (Jan-Mar 2019) online course “Embedded System Design System with ARM” conducted by NPTEL with the consolidated score of 78%.
- ❖ Ms. Gayathri S Rao, 3rd year student successfully completed 8 week (Jan-Mar 2019) online course “Cloud computing” conducted by NPTEL with the consolidated score of 48%.
- ❖ Mr. Hrishikesh Prabhu, 3rd year student successfully completed 8 week (Jan-Mar 2019) online course “Embedded System Design System with ARM” conducted by NPTEL with the consolidated score of 85%.
- ❖ Mr. Hrishikesh Prabhu, 3rd year student successfully completed 8 week (Jan-Mar 2019) online course “Microprocessors and Microcontrollers” conducted by NPTEL with the consolidated score of 77%.
- ❖ Mr. Dhanush Kava, 2nd year student successfully completed 8 week (Jan-Mar 2019) online course “Digital electronic circuits” conducted by NPTEL with the consolidated score of 58%.
- ❖ Ms. Anjana Bhat, 2nd year student successfully completed 8 week (Jan-Mar 2019) online course “Analog circuits” conducted by NPTEL with the consolidated score of 76%.
- ❖ Ms. Namratha Shenoy, 2nd year student successfully completed 8 week (Jan-Mar 2019) online course “Analog circuits” conducted by NPTEL with the consolidated score of 66%.
