Vision

To make world class centre for quality resources in print and digital form, to facilitate learning and research.

Mission

To enable our readers to make use of Library resources and services most effectively with help from modern technological tools and applications.

Objectives

- To be user centric
- Build collections and create tools to support teaching, learning and research.
- Provide access to current and updated information resources.
- To help users to find right information at the right time.
- To help users in their curriculum activities with knowledge support.
- Providing comfortable learning environment to users.
